

CURRICULUM VITAE

Anna Assimakopoulou, Ph.D.

I. Position

Professor in *Mineral nutrition of higher plants*
University of the Peloponnese
School of Agriculture and Food
Department of Agriculture
Address: 24 100, Antikalamos, Messinia, Greece
Tel. +302721045178
Email addresses: a.asimakopoulou@uop.gr;
assimakopoulou.a@gmail.com

II. Education

BSc & Integrated MSc in Agronomy (1982, Agricultural University of Athens)
PhD in *Mineral nutrition of higher plants*, Lab. of Plant Physiology, Dep. of Agricultural Biotechnology (2002, Agricultural University of Athens)
Foreign Language skills: English and French

III. Research interests

- Mechanisms of nutrient element absorption and transport in plants
- Evaluation of plant varieties and rootstocks to physiological stresses due to deficiencies or toxicities, substrate salinity, etc
- Interaction between plant nutrition and disease susceptibility
- Non-parasitic fruit disorders (rind spotting, blossom-end rot, tip-burn etc)
- Fertilization in organic and conventional tree farming
- Orchards and vineyards nutritional surveys
- Improvement of the reliability of leaf analysis sampling
- Effect of nitrogen level and form on growth, plant nutrition, and nitrate content of leafy vegetables
- Study on the growth and nutritional status of leafy vegetables grown with Deep Flowing Technique (DFT) and on several solid substrates
- Influence of NaCl salinity on growth, inorganic nutrition, physiology and quality of tomato fruits, beans, strawberry, etc.
- Salt tolerance evaluation of indigenous Greek olive cultivars
- Olive mill waste sludge use on plant growth substrates
- Impact of pH and salinity on the growth and chemical composition of wild edible greens
- Plant growth regulators effect on fruit properties of apricot, olive trees etc

IV. Selected Professional Experience

18/10/2022 till now: Professor in the scientific field of mineral nutrition of higher plants, Department of Agriculture, School of Agriculture and Food, University of the Peloponnese.

12/07/2016 till 17/10/2022: Associate Professor in the scientific field of mineral nutrition of higher plants, Department of Agriculture, School of Agriculture and Food, University of the Peloponnese.

Από 29/6/2012 till 11/07/2016: Assistant Professor in the scientific field of Mineral nutrition of higher plants, Department of Agriculture, School of Agriculture and Food, University of the Peloponnese.

29/10/2007 - 28/6/2012: Lecturer, Lab. of Pomology, School of Agriculture and Food, Department of Agriculture, University of the Peloponnese.

30/3/1998 - 28/11/2003: Agriculture engineer in the Laboratory of ‘Non-Parasitic Diseases’, Dep. of Phytopathology, Benaki Phytopathological Institute, in Athens, participating in research projects related to: a. the effect of nitrogen on the concentration of nitrates and nutrient elements in leafy vegetables, b. the physiological stress on plant indexes (clovers) due to ozon toxicity, c. the ‘blossom-end rot’ in peaches, d. the relationship between the susceptibility of pistachio to *Camarosporium pistaciae* and tree inorganic nutrition, e. the interaction of different Fe levels and N forms of nutrient solution on the growth, concentration of nutrient elements and root Fe³⁺ reduction capacity in spinach, etc.

29/5/1989 - 29/3/1998 and 29/11/2003 - 28/10/2007: Agriculture engineer in the District Laboratory of Agricultural Extension and Fertilizer Analysis (P.E.G.E.A.L.), Xylokastro, Greece, responsible for a. chemical analyses of plant (leaf analysis), soil and water samples, b. fertilization recommendations, c. parasitic and non-parasitic diseases diagnosis and control, and d. research projects related to: a) pre-harvest ‘rind spotting’ in ‘Clementine’ mandarins, b) rind-spotting in grapes (var. Soultanina) and c) “Sustainable fertigation techniques for vegetable production in Greece”, a project financed by the European Commission (Framework Programme 6; Marie Curie - Transfer of Knowledge) between Holland (Applied Plant Research-Division Glasshouse Horticulture, University of Wageningen) and Greece (Olive and Horticultural Crops Institute of Kalamata, N.AG.RE.F.). In the second period (29/11/2003 - 28/10/2007) in P.E.G.E.A.L., I had participated to the implementation of the accreditation of the Laboratory according to the quality system ISO/IEC 17025, as well.

V. SELECTED PUBLICATIONS AND PRESENTATIONS

- 1. Assimakopoulou, A. 2002.** Mechanisms of iron absorption and transport in peach rootstocks. PhD. *Dep. of Agricultural Biotechnology, Agricultural University of Athens*
- 2. Isaakidis, A., Sotiropoulos, Th., Assimakopoulou, A. and Stylianidis, D. 2002.** Methods to improve reliability of leaf analysis results for Iron-deficiency in Kiwi fruits. *Agrochimica*, 43 (3-4): 138/145.
- 3. Troyanos, Y.E., A. Assimakopoulou and E. Moustaka. 2004.** Effect of the nitrogen fertilization on the yield and nitrogen concentration of lettuce (*Lactuca sativa* L. cv. Toledo). *Hellenic Plant Protection Journal*, 20: 20-28.
- 4. Troyanos, Y.E., A. Assimakopoulou and E. Moustaka. 2004.** Effect of nitrogen application on the growth and concentration of total nitrogen and nitrates in Butterhead (cv. Divina) and Romaine (cv. Toledo) lettuce grown in nutrient solution. *Hellenic Plant Protection Journal* 20: 29-44.
- 5. Assimakopoulou, A. 2006.** Effect of iron supply and nitrogen form on growth, nutritional status and ferric reducing activity of spinach in nutrient solution culture. *Scientia Horticulturae*, 110: 21-29.
- 6. De Kreij, C., V. Kavvadias, A. Assimakopoulou and A. Paraskevopoulos. 2007.** Development of fertigation for trickle irrigated vegetables under Mediterranean conditions. *International Journal of Vegetable Science* 13 (2): 81-99.

7. **Assimakopoulou, A.**, Y.E. Troyanos and Ch. Tsougrianis. 2008. Effect of different rates of nitrogen application on some micronutrients concentration in lettuce and spinach. *Hellenic Plant Protection Journal* 1: 26-31.
8. **Assimakopoulou, A.**, Ch. Tsougrianis, K. Elena, C. Fasseas and G. Karabourniotis. 2009. Pre-harvest rind-spotting in ‘Clementine’ mandarin. *Journal of Plant Nutrition* 32 (9): 1486 – 1497.
